

Professor Ryoji NOYORI

Ryoji Noyori is a 2001 Nobel laureate in chemistry for his development of chirally catalyzed hydrogenation reactions.

Education

1969–1970	Postdoctoral Fellow, Harvard University
1967	Dr. Eng., Kyoto University
1963	Master, Kyoto University
1961	Bachelor, Kyoto University

Appointments

2015–	Director, Science Museum, Japan Science Foundation
2015–	Director-General, Center for Research and Development Strategy (CRDS), Japan Science and Technology Agency (JST)
2006–2008	Chair, Education Rebuilding Council
2005–2015	Chair, Science and Technology Council, Ministry of Education, Culture, Sports, Science and Technology
2003–2015	President, RIKEN (2015– RIKEN Fellow)
2003–	University Professor, Nagoya University
2002–2003	President, The Chemical Society of Japan
1997–1999	Dean, Graduate School of Science, Nagoya University
1972–2003	Professor, Nagoya University
1968–1972	Associate Professor, Nagoya University
1963–1968	Instructor, Kyoto University

Academy Memberships

Member of Japan Academy and Pontifical Academy of Sciences. Foreign member of American Academy of Arts and Sciences; National Academy of Sciences, USA; Russian Academy of Sciences; National Academy of Sciences, Korea; Royal Society, UK; Polish Academy of Sciences; Chinese Academy of Sciences. Honorary academician of Academia Sinica, Taiwan.

Awards

2010	Lomonosov Large Gold Medal (Russian Academy of Sciences)
2001	Nobel Prize in Chemistry (Sweden)
2001	Roger Adams Award (American Chemical Society)
2001	Wolf Prize in Chemistry (Israel)
2000	Order of Culture (Japanese Government)
1999	King Faisal International Prize for Science (Saudi Arabia)
1998	Person of Cultural Merit (Japanese Government)
1997	Arthur C. Cope Award (American Chemical Society)
1995	Japan Academy Prize
1993	Tetrahedron Prize (UK)
1993	Asahi Prize (Japan)

Institution

Department of Chemistry, Graduate School of Science, and Research Center for Materials Science, Nagoya University (e-mail: noyori@chem3.chem.nagoya-u.ac.jp)
